

kabuk

Wild and Free

“ Mankind has lived in tents for thousands of years. Humans strived to have a life of harmony with nature. Kabuk recreates this tradition with today's vision ... ”

Dođan Güneş
Founder and CEO of Kabuk

eva_{edition}

2

Inspired by the organic forms found all around us, Kabuk's design offers a vision of harmony between humans and nature.

Kabuk which has been designed with a minimal and organic understanding, is suitable for all kinds of soils and climates, can be moved when necessary, simply disassembled and easy to install.

3

The concept and unique shape is what inspired the oval shell-like shape of Kabuk.

4

The surface layers of Kabuk consist entirely of recyclable material. This aspect of our design is very important as we try to make our process environmentally friendly as possible. Our aim is not only to connect with nature but to protect and maintain its balance.

Kabuk's wild and free journey

The transition between modern
urban living to a free and wild life
is a lost dream
longing to be found ..

This dream is now closer than
ever thanks to Kabuk.

6

eva

While we always look for function and style, the unique design of Kabuk covers this aspect. The surface platform and connecting anchors make the structure suitable for all soils and ground.

This important detail provides many benefits and solves the usual problems of “Where can we build ?”

8

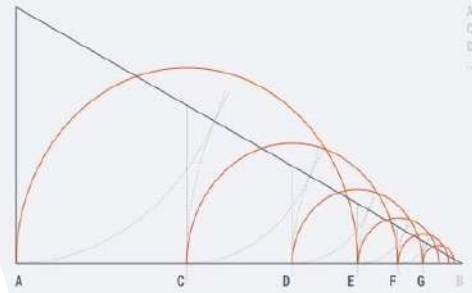

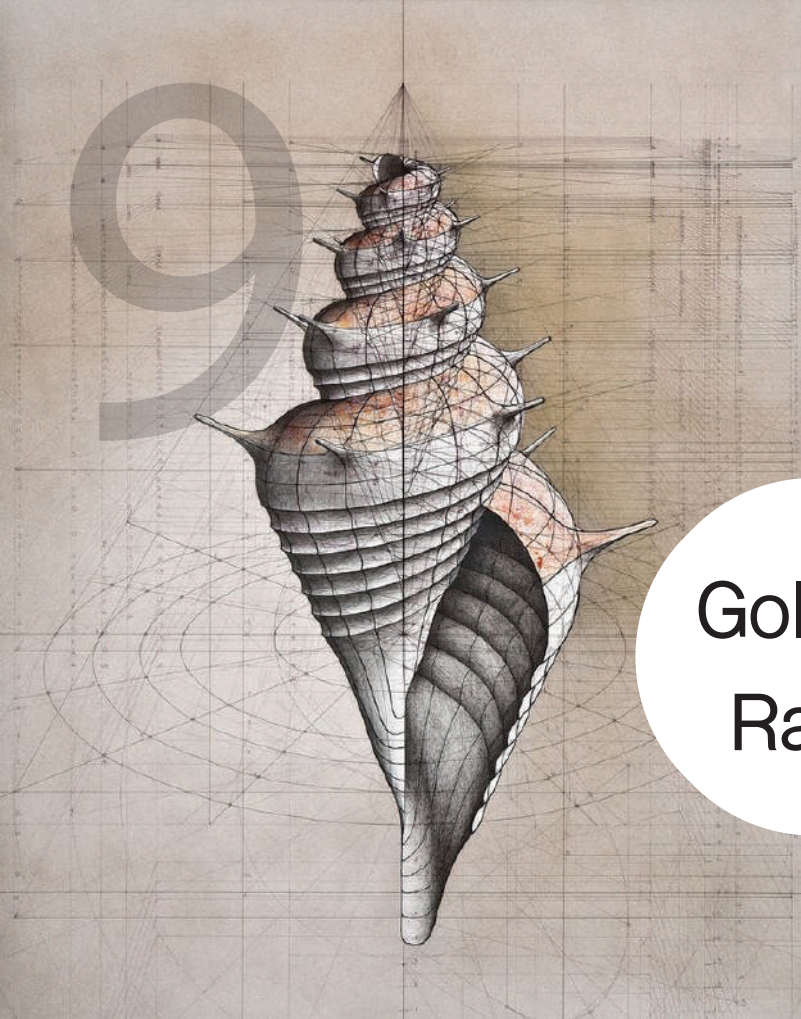

A vision of harmony – humans and nature

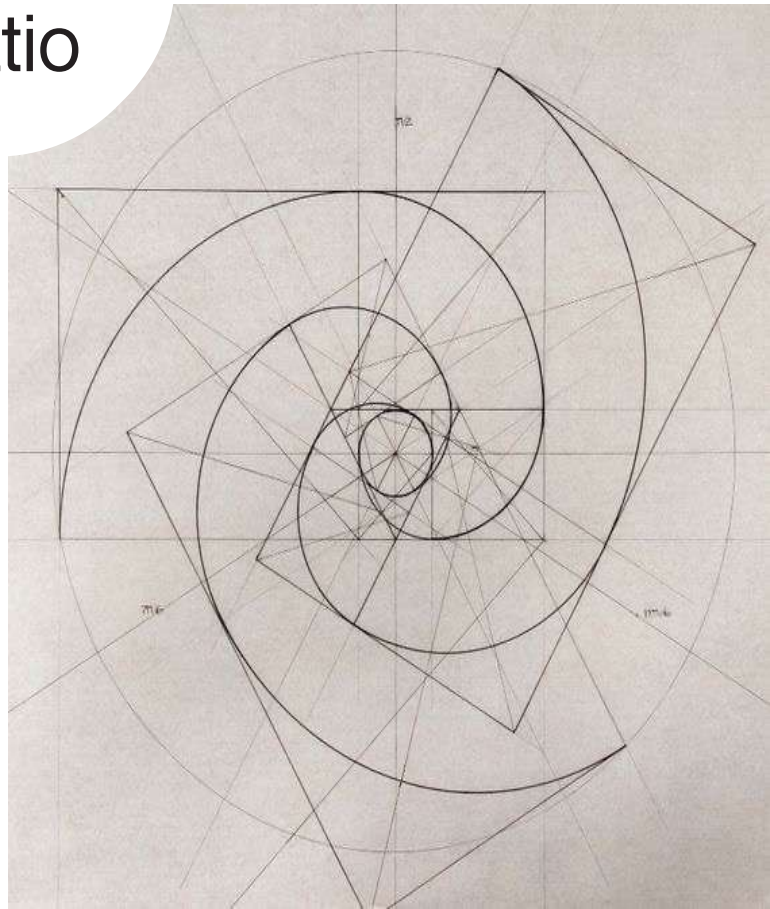

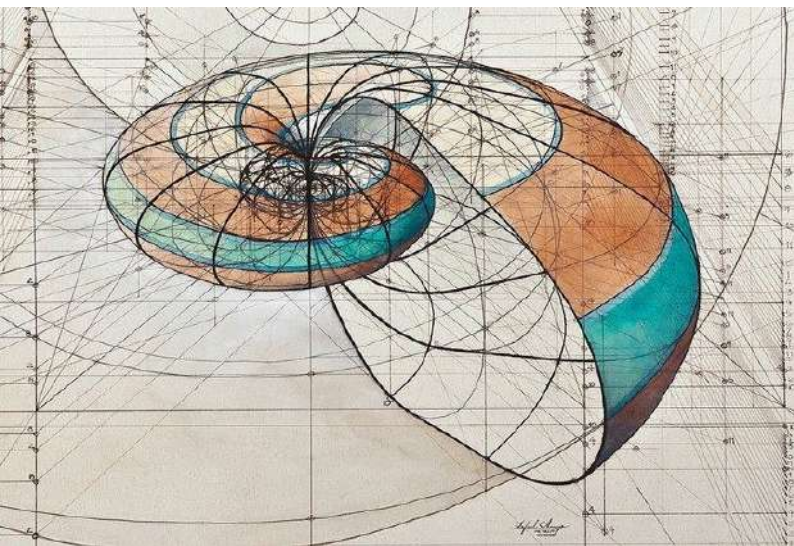

The engineering of 'eva' gives high durability against all weather conditions, whether mild or extreme. The metal structure and specially designed tent withstand the constant changes in nature.

Kabuk can be placed anywhere and everywhere.

Golden Ratio

10

Extreme weather durability

Snow

Be sure and confident about the changing weather when it comes to Kabuk.

The high quality tent is a first class product as well as the strong insulations give it the ability to withstand snow at any temperature.

This is your chance to experience the first fall of snow as close to nature as possible.

12

Desert

If it has been a dream for you to experience the dry and heat first hand, it is possible now with Kabuk.

Temperature, however high, serves no challenge for 'eva'. Enjoy your own home with no worries what so ever.

This is our mission

Our mission is to create living spaces compatible for both people and the environment, as an alternative to harmful concrete structures.

We design and manufacture this vision to give you a new start for a better life style.

16

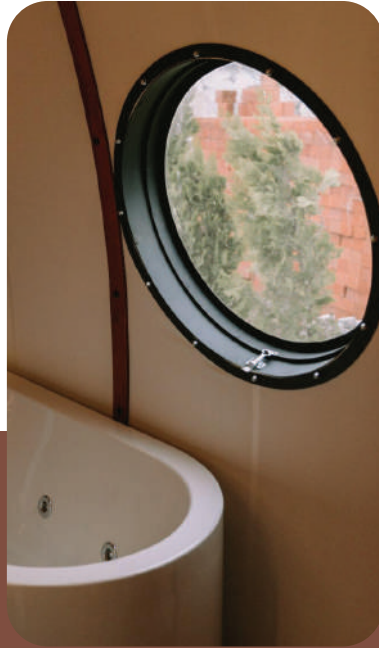

Interior Design

Contemporary decor with earthy colors and natural elements, gives simplicity yet elegance to Kabuk. Our special open floor design uses soft texture and clean angles to give a spacious living area.

With tasteful multi-purpose elements, such as the Hammock , not only gives a feeling of home, but also accentuate the earthy theme of Kabuk. Furniture's and objects sizes and color have been taken into account and specially chosen to match the nature it is inspired by.
